Genetic Jungle - Page 1
Here is your personal invitation to join us Friday December 9th for the first Episode of the Genetic Jungle Sale. As you view this sale book we are sure that you will quickly note that each of us strives to produce a certain type of female. The cattle in this book were bred for foot size, impeccable structure, enough muscle to produce head of the class caliber steers, and a flat shoulder to produce the next generation of front pasture level cows. We don’t necessarily follow the trappings of any individual breed association but prefer to hand select the best traits out of each breed in order to incorporate into our individual herds to create the ideal female in our eyes.

This first Episode includes the top females from each of our operations. Sievers & Ebersole have dug down deep into their bred heifer pen and have included the show string who have collected an impressive amount of banners. Most of these bred heifers sell safe AI, and all of these females are the type we love to keep. The bred heifers are maternal in their breeding and yet have the power to create elite showsteers. While the herd bull prospects are backed by tremendous cow families.

The cattle presented from Derrer Farms include some of the best cow families on the farm, the same families that have helped to grow his herd to where it is at today. These females all sell safe in calf to popular AI sires, and have been mated to help insure a quick return for their new owner. Be sure to check towards the back of the catalog as we are offering a tremendous set of fall pairs, many of these females will be AI bred back prior to the sale.

As the lead up to the sale continues please continue to check online for video previews of this year’s offering and if you have any questions regarding this set of cattle feel free to give us a call. We love to talk cattle.

Thank you for your consideration,
Derrer Farms - Sievers Show Cattle - Eb’s Cattle Co.

Terms & Conditions...

Health: All animals will be eligible for interstate shipment unless otherwise announced. Health papers will be furnished for each animal over 6 months of age.

Terms & Conditions: Terms of sales will be cash, good check, or Mastercard or Visa payment. If a credit card is used a 3% service fee will be applied to purchase. All statements made from the auction block will take precedence over materials printed in this catalog. Cattle sell via the terms and conditions set forth by their respective breed organizations.

Sexed Semen: Due to the fact that sexed semen only guarantees a heifer pregnancy 90% of the time we are unable to guarantee that a heifer will be conceived by cattle bred using sexed semen.

Registration Papers: Please leave all transfer instructions with the sale clerks at the conclusion of the sale.

Pregnancy Information: All of the bred females in this offering have been pregnancy checked and confirmed pregnant to the dates listed in this catalog. Buyers have 21 days to re-pregnancy check females purchased in order to confirm these dates. Please contact seller as soon as possible if any issues are found.

Accidents: Although every precaution will be taken to protect the safety and comfort of the buyers and those attending the sale, the seller, sale management, and all associated with the sale and its facility do not assume any responsibility for injury, theft, accident, or loss of property.

Trucking: Assistance will be given in making shipment after the sale, but no risk will be assumed by the seller. Expenses incurred are the responsibility of the purchaser who should furnish instructions at the time of settlement.

At the conclusion of the sale we will raffle off a IVF Flush Cycle
All cost and vet work Donated by DeWitt Vet Clinic
Everyone who purchases an animal in this sale will be entered into the drawing.
It's not very often that a heifer of this caliber is offered for sale at public auction in the prime of her life. However we are committed to offering our very best in this inaugural sale. 15C is the reigning Reserve Champion at the always competitive Iowa State Fair Open Show. Her unique blend of striking image from the side and power is what sets this heifer apart from her contemporaries. Yet it’s when this female is set into motion, that she becomes a breed elite. We are offering 1/2 interest with the option to double the hammer price and own her in her entirety. If the buyer opts to buy all of her, we reserve the right to 2 successful flushes of a minimum of 6 embryos per flush with no cap, work to be done at buyer's convenience and sellers expense.  

Sievers, Ebersole, & Taylor Duckett

This is the type of cattle that I am trying to make around here. Maternal bred yet enough hair and muscle to go the steer route. This is not your typical 1/2 Simmy. She is more moderate and chunky made, yet still maintaining a sweet front end. This heifer is out of our Lexi donor that originated from Mike Huston. Because she is so different, she was shown commercial where she was named Champion Commercial female at the World Beef Expo Junior Show. A really good haired, good looking steer making donor prospect here Sievers & Ebersole.
J&J Queen needs no introduction to the cattle industry. This outstanding donor has produced multiple Champions and Promotional bulls when mated Angus, Simmental & Maine. 515C is a 3C Macho x Queen 414, which makes her a full sibling to WLTR Renegade and WLTR Lydia both of which were National Champions in 2009 for Walter Cattle Company. 515C is also a full sibling to our high selling heifer in the 2015 Ladies of the Fall Sale that went to Mike Unruh from Oklahoma. This future donor is a good haired 1/2 Simmental with tons of belly and a great smooth shoulder. We reserve the right to one successful flush with a minimum of 6 embryos. Work to be done at buyers convenience and sellers expense.

50C and 50AC are the result of an embryo that split. These two females are full siblings to the Champion SimAngus bull at the 2015 NAILE, GCC Stock Broker, who is now a promotional bull for Griswold Cattle Company. The consistency of these genetics are second to none. These two females will be a great investment and will find their way to the donor pen. Buy with confidence.

Phenotypically, this Macho half blood Simmental is amazing but that’s not the best thing about her. Her ability to produce has been second to none. This summer, she cashed in a very impressive Here I Am steer and these two daughters are testimony that she is capable of doing what ever is asked. Cow families are what makes our farm payment. Let the “77’s” help you with yours! Derrer Farms
Some of our most productive club calf cows are Jakes daughters. This blue tank has already out done herself with an incredible No Surprise heifer and the MAB she is carrying should be a Shorthorn marked rock star! **Derrer Farms**

Cow Families - It’s the foundation that any program is built on. I wish you all could’ve seen the dam of this female. She is the picture in my head that exemplifies what a foundation female looks like. This Meyer daughter is stunning. Her list of progeny is long and her impact on our program will go on for generations. She has been flushed to Who, MAB, Troubadour, & Yellowstone. Her daughter and granddaughter on the facing page are two very gifted individuals. This is a timeless female with so much time ahead of her and so many new and exciting possibilities. Derrer Farms
This power house Who female has clicked very well with Monopoly, Solid Gold, and most recently Here I Am. Like her mother, she’s a high impact individual and a hell of a team player.

Derrer Farms
This jet necked, square built, smooth made beauty is hard to part with. We don’t have a lot of these Ali cows but damn, I wish I did. She has left us with two stunners by Monopoly and No Surprise and this year a Here I Am steer that can take a little heat. Very proven, very special.

**Derrer Farms**
Rylee showed this female very successfully in 2011, and won Division Champion honors at the Illinois State Fair. Angus females with this much timber under them, coupled with this much skeletal width and dimension, plus a rocket for a front end are rare. She was recently flushed to Whiskey and Hammer and is leaving us with a Bodacious heifer that is the spitting image of her. Safe to Broker- her future is bright.

JLM Blackcap 572X

**Sire:** Bismarck

**Dam:** R Blackcap 517

**AI:** 6/17 Broker

No clean up

DOB: Fall 2010

88X is a very impressive specimen. She has spent her tenure here taking care of business. Her highlights include replacements by Friskey Whiskey and Optimus Prime, and a herd bull prospect by Hammer. With the excitement building around Maternal Made, success is only a few short months away. **Derrer Farms**

Lot 12

DF Ms Lutton 88X

**Sire:** Lutton

**Dam:** Irish Whiskey

**AI:** 4/30 Maternal Made

No clean up

DOB: Fall 2010
I would’ve liked to have had the opportunity to make a lot more of these Lutton daughters. But when the semen price sky rockets like it did, we had to move on. The way this female has clicked with Whizard and Wheelman, there is no doubt in my mind that this Broker will be special.

**Derrer Farms**

This Lutton is a beast. Her overall mass and soundness of structure set her apart. And if you could’ve seen her mother, you would know why! We have a Jakes Proud Jazz daughter off her that is impeccable. One of the coolest steers that I saw this fall was a Fu Man Chu out of an Angus cow. This one might be holding the winning ticket.

**Derrer Farms**
For over 10 years now, we have been using Maximus to produce some of the most versatile females on our farm. 131X is no exception. She has produced two daughters by Eagle Eye and Daddy’s Money and a Broker bull that was pretty exceptional. Safe to Made to Order, this is a pretty safe bet. Derrer Farms

44Y may not look like the ultimate steer producer but don’t let her fool you. She has the job figured out. Not one, but 2 steers by Walks Alone and Lone Ranger; $3000 & $3500.. pretty good day’s work. Safe to Here I Am, my money’s on her. Derrer Farms
Impressive Maternal Matrons

Another half blood Simmental out of Broker but bred a little different on the bottom side. This heifer’s dam is a Maximus x Friction donor that I purchased from Jeff Holmes. This is a really good haired, monster boned female with a little added chrome. A clean bred female that can go maternal or breed her clubby to make those high dollar steers. *Sievers & Ebersole*

### Lot 42

**Sire:** Uncle Si (X2 x Whiskey)  
**Dam:** Defiant

This female is a beautiful blend of Maine Anjou and Simmental genetics. Her sire Uncle Si is a BBN X2 x Irish Whiskey that is owned by Bob Jon Farms of Illinois and her dam goes back to Grizzly and SOS. This heifer was campaigned successfully by the Swalve Family of Illinois. She was a class winner at the Illinois Beef Expo and Reserve Mainetainer female in the Junior Show at World Beef Expo. After this one lays down and has a great one out of Jose, she will head right to the donor pen. Great donor prospect here.

- **Sire:** Doc
- **Dam:** I80 x Meyer 734
- **DOB:** September 2014
- **AI:** 5/4 Bush’s Unbelievable likely AI PE 6/1 till 9/1 to No Worries/Aftershock

A cool looking Doc daughter who is royally bred on the bottom side, with I80 and Meyer backing her. This one is out of a first calver who in her second year produced a stellar Surround Sound steer. Great cow family. *Sievers & Ebersole*
This is what gets us out of bed every morning - the passion to raise really good cattle. Fat cattle go up and down; feeders go up and down; the corn market follows suit but the show cattle industry has a life and pulse all its own. We don’t need anybody in Chicago to tell us what our product is worth. This thing is always on fire and the demand for great cattle gets better every day. This young pair speaks for themselves. 92Z has a Yellowstone daughter every bit as cool as she is and this Monopoly heifer calf is every bit as good as her picture. Easy to look at, hard to resist. **Derrer Farms**

Sometimes I sit on the 4 wheeler and just get caught up in looking at cows like 30X. There is just something about the outside of a cow that is good for the inside of a man. This exquisite female has two Troubadour daughters in production and this Pump Daddy heifer calf will follow suit. It’s hard to let go of stuff like this. I just keep telling myself it’s what we do. Derrer Farms
Everelda was purchased with the sole intent to make half blood Simmental cattle and she did that with great precision. She has two daughters by Whizard & Macho that are splendid in their kind. This Game On heifer has met and exceeded my expectations. One show heifer, two great breeding pieces, serviced back to Broker. Good things really do come in threes.
